

PM Role in an AI World: the session at a glance

120 minutes, the same in every region. One outcome: pilots people want to run on Monday.

1 Introduction

10 min • plenary • moderator

- Why the PM role is changing
- Goal: define your work around AI
- Everyone already knows their room

2 AI use cases

2 × 15 min • plenary • 2 speakers

- Two real AI use cases
- What it took and what it gave back
- Sets the bar for the pilots

3 Breakout • Pain to Pilot

60 min • rooms C1–C6 • facilitator + Builder

Orient 5'

Map the hours 10'

Design 12'

Build & challenge 15'

Fix & decide 8'

Commit 10'

- One case, one agent, one pilot per room
- Agent takes routine, PM keeps judgment
- Output: Pilot Pack + 90-second debrief card

4 Wrap-up

20 min • plenary • debrief host

- Summit Debrief, 90 s per room
- Vote: which pilot on Monday morning?
- Three awards, pilot owners named

BEFORE • BY TUE 3 NOV

- Rooms allocated in the invitation (29 Oct)
- Pre-work: story, case file, own week
- One Builder per room with Agent Builder

SITE OWNERS • ON THE DAY

- A room, screen and network per breakout
- Capture link plus paper fallback
- Live scoreboard on the plenary screen

AFTER THE SUMMIT

- Pilot owners confirmed by 12 Nov
- 30-day pilot readout in early December
